

### **Course -1 Teaching for Success – Learning and Learners:**

This free online course is for English language teachers. It will help in developing the skills and practices needed for Continuing Professional Development (CPD) of a practicing teacher.

The course itself is highly participative and it will give an opportunity to share your own experiences and opinions. You will be able to compare your teaching approaches and experience with other teachers from around the world while discussing different types of knowledge required for a teacher.

This course will look at four professional practices:

- Understanding learners
- Knowing the subject
- Using inclusive practices
- Assessing learning

### **Course-2 Teaching for Success-The Classroom and the World**

This free online course is for English language teachers. It will help in developing the skills and practices needed for Continuing Professional Development (CPD) of a practicing teacher.

This course will look at four professional practices:

- Integrating ICT
- Promoting 21st-century skills
- Using multilingual approaches
- Understanding educational policies and practices.

The course draws on the British Council's many years of expertise in teacher training and development around the world. It will be useful for teachers of English at primary, secondary or higher levels.
